PayHOPE FOR DEFEAT
OF REED GIVEN UPMissouri Senator Maintains
Lead of 7,000 Over
His Opponent.

ST. LOUIS, Mo., Aug. 4.—(By The Associated Press)—James A. Reed, U. S. Senator, maintained a lead of nearly 7,000 votes over Breakeridge Long for the Democratic nomination for that office today.

In 3,629 precincts of 3,848 in Missouri, the vote stood: Reed, 159,321; Long, 152,434. Experienced observers of Missouri politics, who have studied the vote by counties, agreed it was virtually impossible for the former third assistant secretary of state to surpass Reed's lead in the limited number of precincts to be heard from.

R. R. Brewster, Republican nominee for senator, will poll a plurality of approximately 20,000. A factor that has come to the fore in the Democratic senatorial contest is the size of the absentee vote. About 1,500 National Guardsmen, away from home on furlough duty at various railroad centers of the state, may play a prominent part in the absentee vote. Many of them are from the rural districts where he showed his best strength.

With 219 scattered precincts in thirty-four counties unheard from, Mr. Long would need more than thirty precincts to overcome the lead of Reed.

Co-operation

Working together is the secret of many a success.

A flint and steel could never make a fire while kept apart, but the friction of contact brings out the spark, which could be produced by neither one alone.

So it is with the Want Ads—they bring together the people who are able to help each other. They kindle the spark of success by turning one man's need into another's opportunity.

The Want Ads are the very essence of co-operation. They survive the acid test in that they operate.
